

# **Learning Recovery:** Best Practices and New Models

July 22, 2021

NITA M. LOWEY 21ST CCLC GRANT PROGRAM  
2021 SUMMER SYMPOSIUM

This presentation may contain examples and resource materials that are provided for the user's convenience. The inclusion of any material is not intended to reflect its importance, nor is it intended to endorse any views expressed, or products or services. These materials may contain the views and recommendations of the presenter as well as hypertext links, contact addresses and websites to information created and maintained by other public and private organizations. The opinions expressed in any of these materials do not necessarily reflect the positions or policies of the U.S. Department of Education. The U.S. Department of Education does not control or guarantee the accuracy, relevance, timeliness, or completeness of any outside information included in these materials. Mentions of specific programs or products in these examples are designed to provide clearer understanding and are not meant as endorsements.

# PART I.

# Big Questions

What can afterschool do well during the moment of crisis, during a pandemic or other circumstance that dislocate families and schools?

How best to document what we learned about what worked?

**Two reports from the Flint Region document what worked in specific communities...**

# Speaker Introductions

**Charles Smith**  
Managing Consultant,  
QTurn

**Nefertari Jones**  
Program Director,  
YouthQuest

**James Yake**  
Director of Health,  
Safety & Nutrition,  
GISD

**Lorraine Thoreson**  
Manager of Michigan 21<sup>st</sup>  
CCLC, Michigan Department  
of Education

The graphic features a vibrant blue and purple background with various icons: a gear, a rocket, a lightbulb, a globe, a speech bubble, and a hand holding a pencil. The text is in a playful, rounded font.

# About...

**GENESEE INTERMEDIATE SCHOOL DISTRICT**

**LEADERSHIP ♦ SERVICE ♦ INNOVATION**

*Partnering for success!*

Please Submit a Question to Lucy or Lorraine:

# What would you like to learn in this session?

1. Select Lucy or Lorraine for private chat
2. Type in question: *What is the definition of learning recovery?*

Anonymity assured - but we might read them without mentioning your name

# Meeting Objectives

**1** **Clarify** mental models for the new individual learning environment during and post-pandemic.

**2** Learn to **Diagnose** successes and barriers during crisis response and lockdown phases

**3** **Document** local best practices and service models for emergency preparedness.

# Compassionate Evaluation

Doesn't require  
a lot of time

prioritizes local  
expertise in  
relation to  
standards

asks generative  
questions about  
what's changed  
and how  
stakeholders are  
responding

supports  
documentation  
local practices  
and models

# Practice completing the Rubric

**2. Information and Advocacy.** Program staff provide information and advocacy to support families or other caregivers trying to meet basic needs (e.g., food, transit, housing, health, mental well-being) and connect with school (e.g., technology).

## Examples from practice:

*The primary caregiver survey includes questions about “other” needs that may be pressing for their individual learning environment (e.g. technology needs, mental health, etc.)...*

*The OST program role is to coordinate with district efforts around basic needs so that parents are not over-loaded with redundant calls and messages...*

## GOLD Rubric

**Name/identify** the local practice example(s) that align to this indicator:

What **barriers** are keeping you from implementing these practices?

### Fidelity

High
Moderate
Low

### Capacity

Yes
No

### Technical Assistance

Yes
No

# YouthQuest Best Practices - Information and Advocacy (2)

**School Connection.** Staff are aware of district resources and language (Robocalls, Social Media, Information Mailed and Emails to students and parents) so that coordinators can relay relevant information to students and caregivers. Communication and collaboration with teachers, school leaders, support staff, community members is done in regular meetings and committees (e.g., success mentoring, attendance team, leadership team, covid response team, PBIS, events planning, etc.).

**Family Information.** Staff reach out to families using home visits, phone calls, text messages, emails, Internet, paper fliers, robo calls, posts on social media, and community engagement events (e.g., Halloween Movie drive-in). Program staff conducts virtual check-ins and refer caregivers to the appropriate resource (e.g., food distribution, housing resources, nutritional resources, Youth Quest services, programs and events).

**Advocacy for Basic Needs.** Program collaborates with key partners (e.g., Flint Schools, CRIM, DHHS) to register encourage students to participate in afterschool and intercession and to provide resources to families depending needs. We provide technology support to families, for example by delivering computers and hot spots and picking up and replacing non-functioning devices; drop off groceries; host food giveaways; provide winter gear, holiday food, and gifts.

Proportion implementing at high fidelity:	Proportion not implementing this practice:	Proportion that want TA:
40%	0%	50%

# Practice completing the Rubric

**14. Social and Emotional Check-In.** Program staff build individual relationships through regular check-ins with child (weekly) and caregiver (at entry and as necessary) to monitor well-being and reinforce the use of socio-emotional skills.

## **Examples from practice:**

*Staff and mentors are trained on building SEL skills and use an SEL framework to guide conversations with children and caregivers.*

*Small group sessions start with check-ins, (e.g., “What emotional color are you today and why?” or “What is the emotional temperature of the room?”) At the end of the session, students do “check-outs” to see if the group ends with the same emotional tone. Staff track if someone is “red” coming in and frustrated going out so that they can do real-time follow-up with the caregiver.*

## **GOLD Rubric**

**Name/identify** the local practice example(s) that align to this indicator:

What **barriers** are keeping you from implementing these practices?

### **Fidelity**

High
Moderate
Low

### **Capacity**

Yes
No

### **Technical Assistance**

No

# YouthQuest Best Practices – Social Emotional Check in (14)

---

**Student Check-in.** Staff provide social and emotional check-ins daily with students during live and virtual programming, e.g., sharing whatever is on their minds, doing emotional temperature, rose/thorn reflections, etc. Students are invited to stay at the end of program to talk to staff and parents are contacted if students are absent for more than 2 days and offered a more intensive mentoring program.

**Family Check-in.** Staff reach out to families regularly, from bi-weekly to monthly depending on needs. Staff are assigned the same families for familiarity and connection. We send home social emotional tools and activities for students and caregivers.

**Skill Focus.** Staff plan activities that cultivate specific skills e.g., mindfulness, physical fitness, small group collaboration, emotion words, planning, leadership, affirmation, reflection, building relationships on a more personal level with emotional, encouraging engagement.

Proportion implementing at high fidelity:	Proportion not implementing this practice:	Proportion that want TA:
70%	0%	40%
